

MEET THE TEACHER!

The Second Grade Team Ms. Friedrich, Ms. Wiz & Mrs. Brady

Mrs. Titus

My name is Aubrey Friedrich and I am so excited to be joining the Southmoor team this year. I grew up here in Colorado and I am a proud graduate of the University of Colorado! I have been teaching elementary school for 7 years, and I love it more each year. I come to Southmoor from the Adams 14 School District, where I taught second and third grade for 4 years. Before that, I taught in the Chicago Public Schools for 3 years. I love teaching because I get to spend my days surrounded by the happiest, most curious people of all- kids! My classroom is a friendly, warm, and engaging place to be. I strive to get each student truly excited about learning. When I'm not teaching I love to read, play board games, do arts and crafts, play tennis, go hiking, travel, and cook. I'm honored to be teaching at Southmoor and I look forward to a great year! Mrs. Friedrich is getting married this summer and will be Mrs. Titus next year!

Ms. Whiz

Ms. Whiz is a native of Colorado. She is a life-long learner with multiple undergraduate degrees in Horse Training; Animal Science; Consumer Economics; and Education. Debbie earned her Masters Degree in Multiple Intelligences and certification as an administrator from the University of Phoenix. After working in business for a number of years, Debbie changed her focus to elementary teaching, she has taught first through sixth grades in Denver Public Schools and served as both an assistant principal and principal. When she has "free" time her hobbies include knitting, knitting, and more knitting; playing with her two "best friends," Quinn and Anthony (friendly and cuddly Bichon's); and reading or watching TV. "I love working at Southmoor! The wonderful staff, students, and families make coming to work exciting!"

Mrs. Brady

After teaching kindergarten at Southmoor for the past 2 years, Mrs. Brady is thrilled to be joining the Second grade team this year. Mrs. Brady has taught kindergarten for the past 6 years and is ready to bring her passion for literacy and project based learning to upper primary. Mrs. Brady is a Alumni of the Buell Early Childhood Leadership Network. Mrs. Brady is endorsed in early childhood special education and will have her MA in ECESSE completed this fall. Mrs. Brady's classroom is a place where children are empowered to create student driven goals, learner profiles, and work to solve real world problems. Her teaching philosophy is rooted in the belief that children learn most effectively when empowered by their learning, and the joy that comes with both embracing and encouraging a child's innate sense of wonder, enthusiasm for discovery, and creativity. When not in the classroom, you can find her exploring all Colorado has to offer or cheering on her favorite baseball teams. Originally from Keystone, Nicole loves the snow, skiing, hiking with her dogs, and is a huge baseball fan!
